

## New England Biolabs Certificate of Analysis

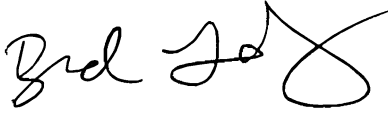

**Product Name:** Amylose Magnetic Beads  
**Catalog Number:** E8035S  
**Concentration:** 10 mg/ml  
**Packaging Lot Number:** 10187353  
**Expiration Date:** 08/2025  
**Storage Temperature:** 4°C  
**Storage Conditions:** 20% Ethanol  
**Specification Version:** PS-E8035S v1.0

Amylose Magnetic Beads Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
E8035SVIAL	Amylose Magnetic Beads	10153878	Pass

Assay Name/Specification	Lot # 10187353
<p><b>Binding Capacity (Magnetic Beads)</b>            Amylose Magnetic Beads ( 1 mg ) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a MBP5*-paramyosinΔSal fusion protein for 2 hours at 25°C, then washed and the MBP5*-paramyosinΔSal fusion protein eluted. Binding capacity was determined to be &gt;10 µg of target protein per mg of beads.</p>	<b>Pass</b>
<p><b>Functional Binding Assay (Qualitative)</b>            Amylose Magnetic Beads ( 1 mg ) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a MBP5*-paramyosinΔSal fusion protein for 2 hours at 25°C, then washed, eluted and evaluated by SDS-PAGE to confirm low non-specific binding of extract proteins and high isolation of target.</p>	<b>Pass</b>

This product has been tested and shown to be in compliance with all specifications.
